Experience

Creative Safety Supply, 2021 - Present

- Led a team of 4 developers in building React applications across multiple e-commerce sites and internal platforms.
- Developed and deployed full-stack web applications using JavaScript, TypeScript, React, Next.js, Node.js, and SQL databases.
- Implemented web servers and APIs utilizing Node.js and Express.js.
- Utilized cloud hosting platforms such as AWS, Heroku, and GitHub to deploy applications and set up CI/CD pipelines.

Freelance Web Development, 2020 - 2021

- Built and deployed websites and full-stack web applications using JavaScript, React, and various tools and libraries.
- Developed custom content management systems.
- Collaborated closely with clients to meet project specifications and deadlines.
- Managed hosting services and deployments for client projects.

Education

Colorado Technical University, 2019 - 2021

Bachelor of Science in Business

Administration - Data Analytics

Calvary Chapel Bible College, 2014 - 2016
